

# NORTH MARKET REHABILITATION PROJECT

## TRAFFIC IMPACTS – ROADWAY CLOSURE

In Cooperation With

State Route 273 north of the downtown area, also known as North Market Street or the Miracle Mile, is currently undergoing major improvements. Deteriorating pavement from Trinity Street, north to Interstate 5, will be replaced in failed areas and then overlaid with fresh asphalt concrete. The project will include a number of features designed to improve pedestrian and aesthetic qualities, including sidewalk improvements, a paved path up Sulphur Creek Hill and a large raised median, made ready for a City of Redding landscaping contract. Other operational improvements include a number of turn lane additions and improvements at the Lake Boulevard intersection. Project completion is anticipated in the spring of 2005.

Due to the complexity of the work and the close working conditions between Tehama Street and Eureka Way, COMPLETE ROADWAY CLOSURES during the weekends of July 16 to 19 and July 23 to 26, 2004 will be required. Changeable Message Signs (CMS) and advertisement in the local newspaper will alert motorists to construction dates. The diagram below shows the current construction, staging plan. Routine work that does not necessitate complete roadway closures will continue Mondays through Thursdays between the hours of 7 p.m. and 6 a.m.

Local residents are encouraged to take alternative routes during the weekend construction process on North Market Street. During regular work, there will be one lane for each direction of travel open at all times. During those periods when complete intersection closures are necessary, there will be detours available and *access to those businesses in the construction area will be available to pedestrians and sidewalks will be open.*

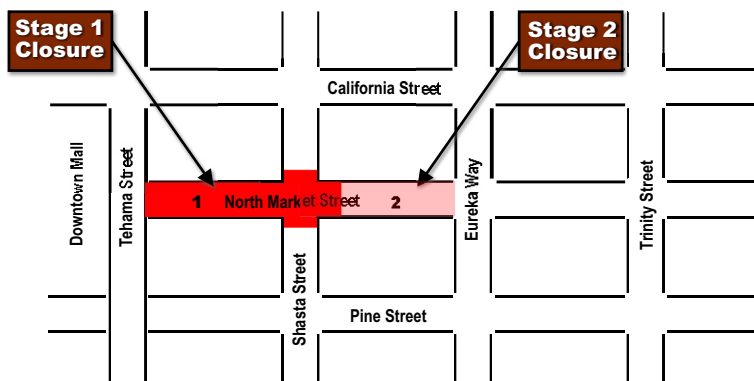

For more information, please contact the Public Information Office at 530-229-0511.

## North Market REHABILITATION PROJECT

**PEDESTRIAN ACCESS TO THOSE  
BUSINESSES IN THE CONSTRUCTION  
AREA WILL BE AVAILABLE**

**SIDEWALKS WILL BE OPEN**
